

**Bug Title:** Product image does not scale on mobile viewport (horizontal overflow)

**Environment**

- OS: Windows 11 Pro (build 26200)
- Browser: Chrome 121.x
- DevTools Device Toolbar: iPhone 12 (390x844) / width 375–390

**Severity:** Medium

**Priority:** P3

**Steps to Reproduce**

- 1) Open a product page
- 2) Toggle DevTools → Device Toolbar
- 3) Select a mobile viewport (375–390px width)

**Expected vs Actual**

**Expected:** Image scales to fit container; no horizontal scroll.

**Actual:** Image keeps desktop width; page overflows horizontally; CTA partly off-screen.
